Focus Technology Group & Buckley Technology Group Enter Into a Strategic Partnership

FOCUS TECHNOLOGY GROUP

BOSTON, MA - September 12, 2013 – Focus Technology Group (FTG), of Danvers, MA, a pioneer in bank data analytics software, today announced that it has entered into a strategic partnership with Buckley Technology Group, of Norwell, MA, a leading professional service provider.

The strategic partnership underscores FTG's strategy to deliver a full complement of governance, risk, compliance services and integrated fraud solutions that deliver value throughout the enterprise for financial institutions.

Focus Technology Group is a leading software provider in audit analytics, fraud detection and anti-money laundering systems that have helped protect hundreds of financial institutions from wide-ranging and costly threats. FTG has been trusted by some of the country's leading financial institutions for over three decades and its legacy product, **BancAudit Pro™**, remains the only Internal Fraud and Audit System on the market today.

Buckley Technology Group is dedicated to providing a unique blend of software and professional services to scores of financial institutions to protect information assets, secure technology systems, and effectively manage compliance. Their solutions address five critical areas: Vendor Management, Information Security, Business Continuity, Gramm Leach Bliley and Disaster Recovery.

"We are extremely pleased with the added value Buckley Technology Group will bring to our clients," said Charles Thiel, CEO and founder of Focus Technology Group. "We are expanding our offerings in this space to help our customers keep ahead of increasing regulatory demands. BTG brings a deep knowledge of financial institution operations and a shared strong commitment to financial institution values."
